The UCCN Secretariat shall continue to make progress in liaising with all member cities, directly or through the UCCN Steering Group (SG), thereby proposing programmatic initiatives and flagship projects, assuming the global management of the Network including the designation process of new members, the membership monitoring mechanism, the organization of the Annual Meetings and the selection of the host cities, undertaking research initiatives, as well as promoting visibility of the Network and raising awareness for culture and creativity for sustainable urban development as appropriate.

Such a strategy should be based on UNESCO’s strategy in related fields, which are specified in the Programme and Budget of the Organization, the 2030 Sustainable Development Agenda, the New Urban Agenda, as well as on the findings of the research project "Maximizing the potential of the UCCN" and ongoing debates on the subject within the Network.

6. Enghien-les-Bains, France, Creative City of Media Arts, was designated as the Host City of the 2017 UCCN Annual Meeting, following the selection process carried out by the Secretariat in collaboration with the SG and involving the member cities designated before December 2015. The selection of the Host City of the 2018 UCCN Annual Meeting will be conducted online by the Secretariat and the result is expected to be announced in the second half of October 2016.

7. The member cities have approved the Secretariat’s proposal to formalize the online votes for the selections of Host Cities of UCCN Annual Meetings as of 2018 to further streamline the selection procedure. The Host City Selection Criteria agreed at the IX UCCN Annual Meeting will be reviewed in order to integrate the security norms and procedures related to the meetings organized by or in cooperation with UNESCO.

8. Among the documents for submission, the bid documents for the Host City of Annual Meeting shall be, as of the 2018 host city selection, submitted both in English and French, the two working languages of UNESCO, to facilitate the evaluation and selection process led by the Secretariat in collaboration with the SG and member cities. The submission of both an English and a French version of the rest of the documents, such as the Application for Designation and the Membership Monitoring Report, is optional but highly recommended so as to improve the quality and effectiveness of the global management of the Network.

The Membership Monitoring Report formalized in the IX UCCN Annual Meeting in Kanazawa, Japan, was implemented for the first time this year. 8 reports have been submitted by the member cities that joined the Network between 2004 and 2006 with the exception of Edinburgh due to technical reasons. 10. It is also aims to further nurture a collective thematic reflection on the 7 creative fields and to promote inter-sectorial sharing of experiences and best practices. Information about these events, including the agenda, presentation of major topics, list of participants and main outcomes, is recommended to be timely provided to the Secretariat so that the information could be diffused in the Network.

11. Each creative field should establish and submit in advance, every 6 months, through its Coordinator a plan of activities featuring the major future projects and initiatives planed by its member cities and aimed at implementing the UCCN Mission Statement. The recommended submission periods are March and September. In this regard, a common format will be established upon the agreement between the Secretariat and the Steering Group.

12. The Network’s member cities are encouraged to further participate in and contribute to not only the activities of the Network but also the implementation of the international agenda for sustainable urban development through culture and creativity, notably in the implementation of the 2030 Sustainable Development Goals and the New Urban Agenda to be adopted at the Habitat III Conference.

13. The member cities are encouraged to make financial and/or non-financial contributions to the Network, an extra-budgetary programme, on a voluntary basis to ensure the long-term stability of the Network and strengthen its global governance and management. A fundraising plan could be proposed by the Secretariat at the 2017 Annual Meeting.
14. The member cities recognize the progress made by the Secretariat in terms of communication and visibility and encourage the later to continue its efforts to further promote the Network worldwide through its digital platform as well as other communication channels.
