http://www.ker-thiossane.org/

Since 2002, Kër Thiossane has been a place for research, residencies, creation and training that encourages the crossroads of disciplines and the integration of multimedia in artistic and creative practices. Seeking to link the development of artistic practices in the digital environment with other major societal issues - education and training, creative industries, citizenship, ecology and town planning - Kër Thiossane implements citizen initiatives such as "L'école des communes" and "Fablab Défko Ak Nëföö". Kër Thiossane received, in 2011, the support of the 2005 Convention’s International Fund for Cultural Diversity (IFCD).

KER THIOSSANE PRESENTS

DIGITAL VIDEO MAPPING

LERAL THIOSSANE

Main hall, UNESCO Headquarters
125, avenue de Suffren, Paris 7°

The fruit of an artistic residency in Dakar (Senegal), the Leral Thiossane digital installation will be inaugurated on December 13 at 5pm and on exhibition at UNESCO until December 15, 2016.

Creating a dialogue between music and images, this original piece of video mapping is based on a multidisciplinary and collective artistic process involving the participation of videographers, graphic artists, coders and musicians.
