Analytical Framework For Inclusive Policy Design

CONCEPT

Analytical Framework

‘Six Dimensions of Exclusion and Inclusion’

Multidimensional

Relational

**Intersecting risks
and drivers**

Dynamic

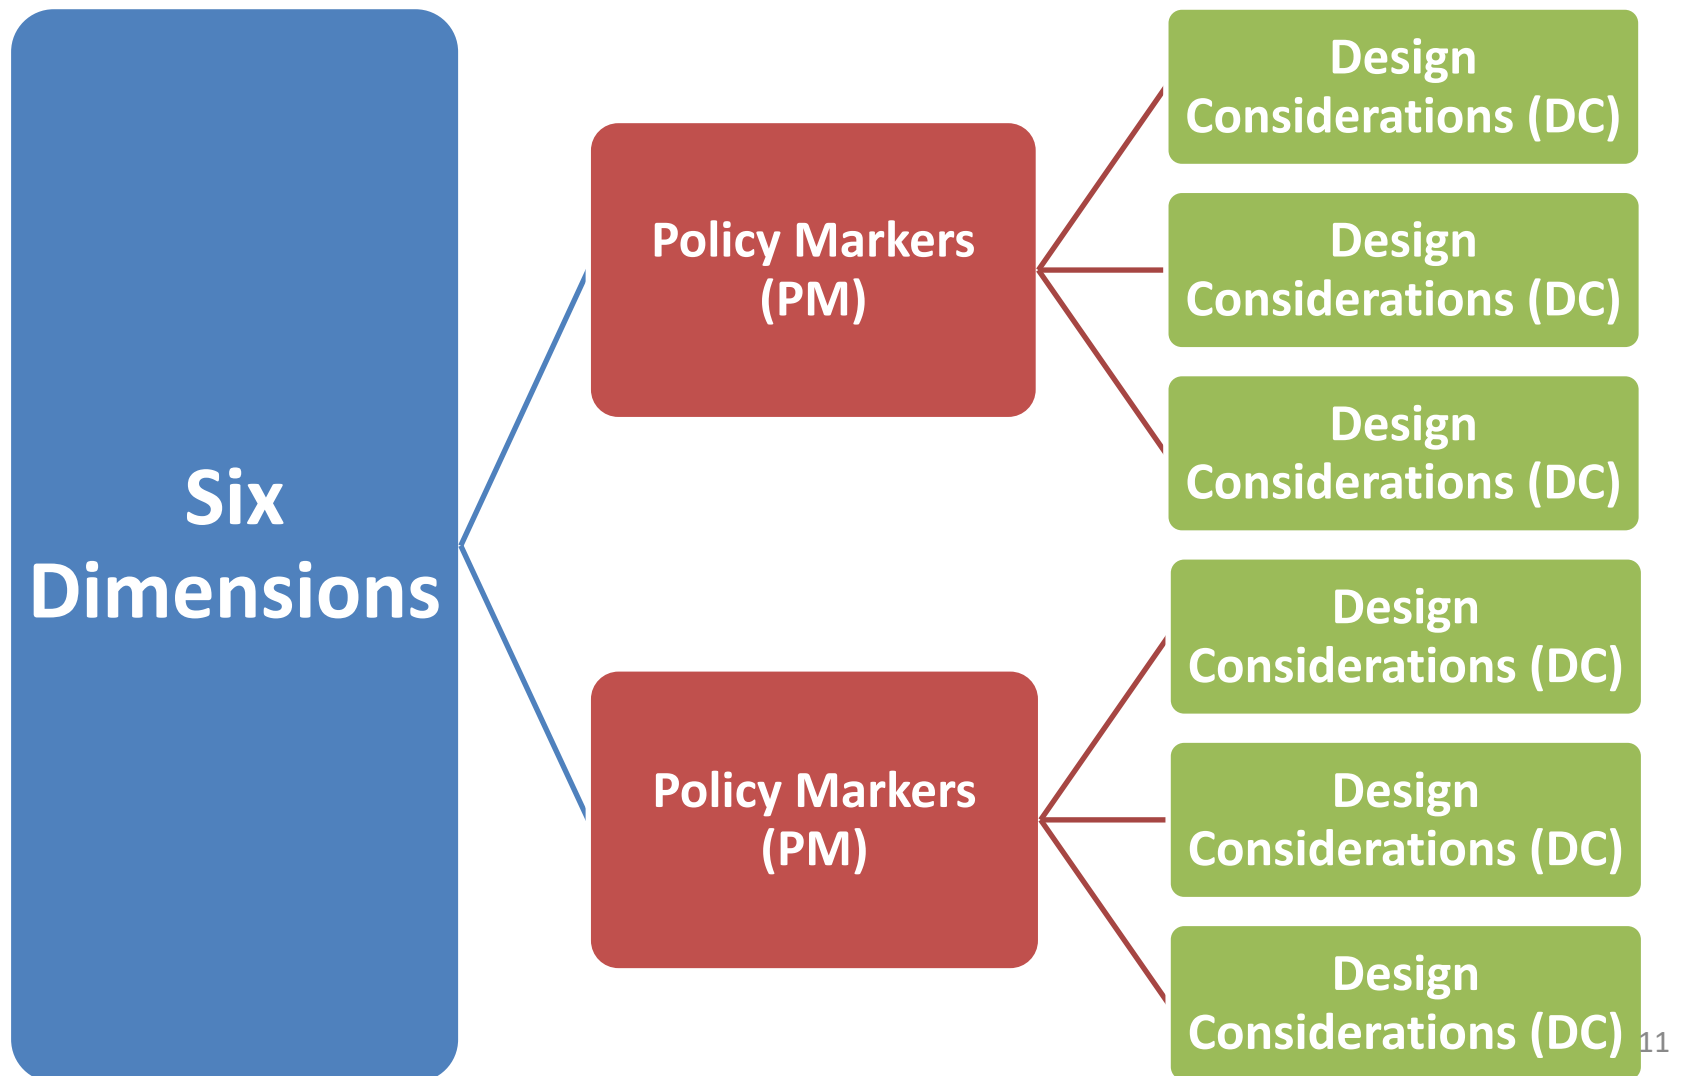

**Multi-layered &
contextual**

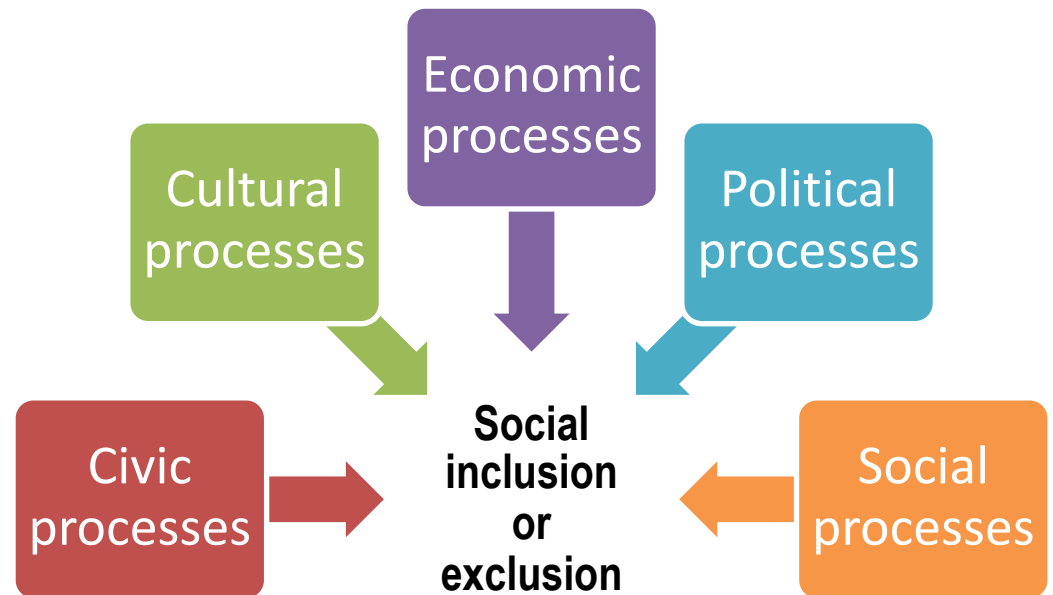

Participatory

Dimensions, Policy Markers (PMs) and Design Considerations (DCs)

Dimension 1

Processes that influence social inclusion

Dimension 1

Policy markers & Design Considerations

Transversal and overarching objective

- System or portfolio of interventions
- Supra-goal at the priority setting level
- Allocation of resources based on needs

Continuum of interventions

- Integrated and multidimensional continuums
- Coordinating mechanisms

Public sector innovation

- Trying, testing, improving approach
- Inclusion of user communities
- New technologies in design and delivery

Integrated and policy-sensitive evidence

- Integrated approach to data
- Equity-weighted data
- Timely data

Dimension 2

Relational

Dimension 2

Policy markers & Design Considerations

Equality of opportunities and outcomes

- Symptoms and structural causes
- Efficient use of opportunities; comparable outcomes
- Quick wins and long-term inclusive goals

Delivery of services and adequate access or uptake

- Public service network
- Causes of low uptake
- Terms of inclusion

Distribution of public expenditure

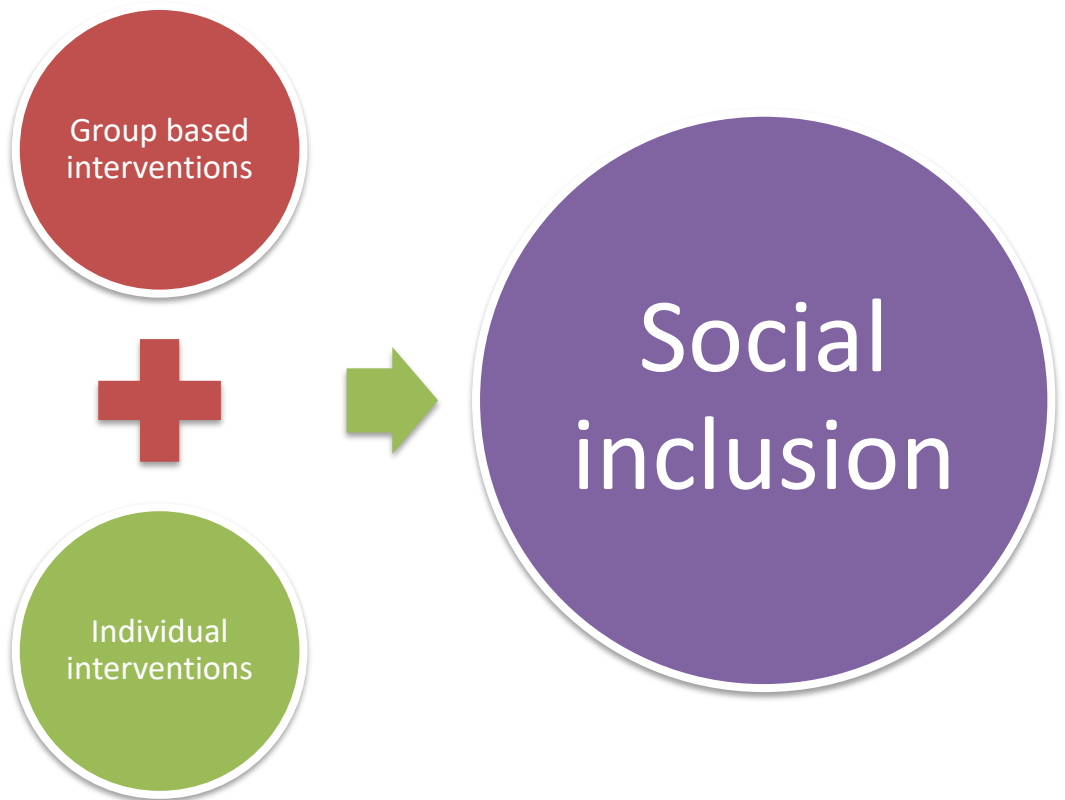

- Redirection of resources
- Group distribution of benefits
- Public awareness and value to society at-large
- Role of international actors

Relation between mainstream population and the excluded population

- Targeting all parties
- Meaningful dialogue

Dimension 3

Intersecting risks & drivers

Dimension 3

Policy markers & Design Considerations

Exclusion risks and their intersections

- Group conditions and individual characteristics
- Differentiated yet shared risk
- Cumulative disadvantage
- Intra-group inequalities

Removal of drivers of exclusion

- Structural, behavioural and policy-related drivers
- Bottlenecks and loopholes with exclusionary potential

Tailored policy design and service delivery

- Needs and preferences of intended beneficiaries
- Not exclusive but fitted interventions

Analysis of differentiated and distributional policy effects

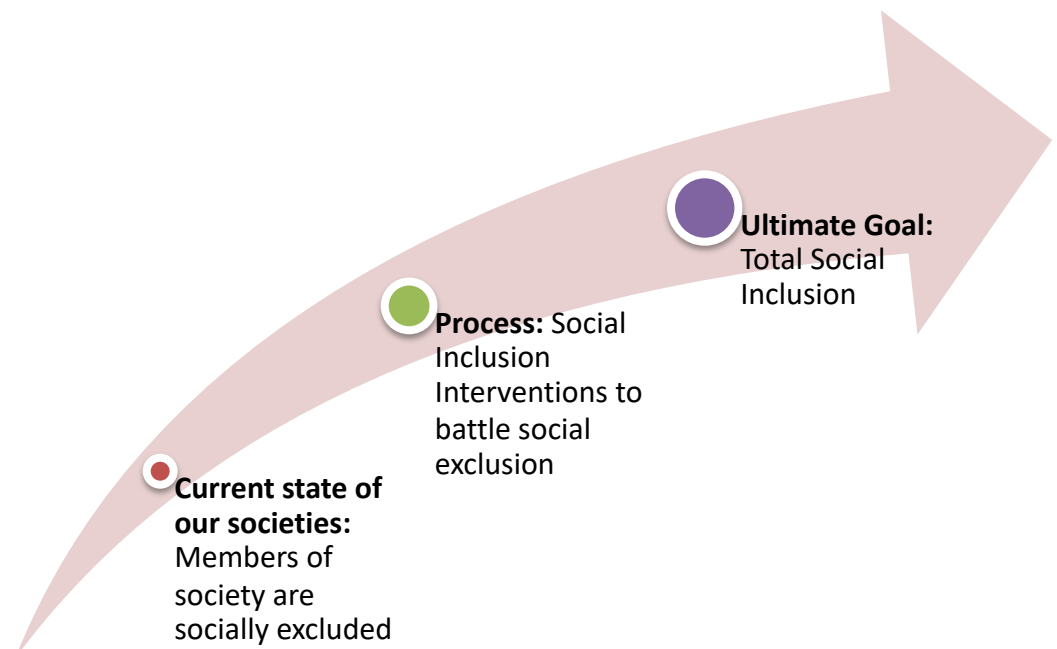

- Inter-sectoral spillovers of risks
- Group- and category-specific corollaries

Weighted breadth and depth of intervention

- Intensity, structure and persistence of exclusion
- Types of risks and drivers
- Depth of coverage

Dimension 4

Dynamic

Current state of our societies:
Members of society are socially excluded

Process: Social Inclusion
Interventions to battle social exclusion

Ultimate Goal:
Total Social Inclusion

Dimension 4

Policy markers & Design Considerations

Built-in duration

- Persistence of exclusion
- Panel or longitudinal data
- Historical and contextual analysis

Long-term and anticipatory character

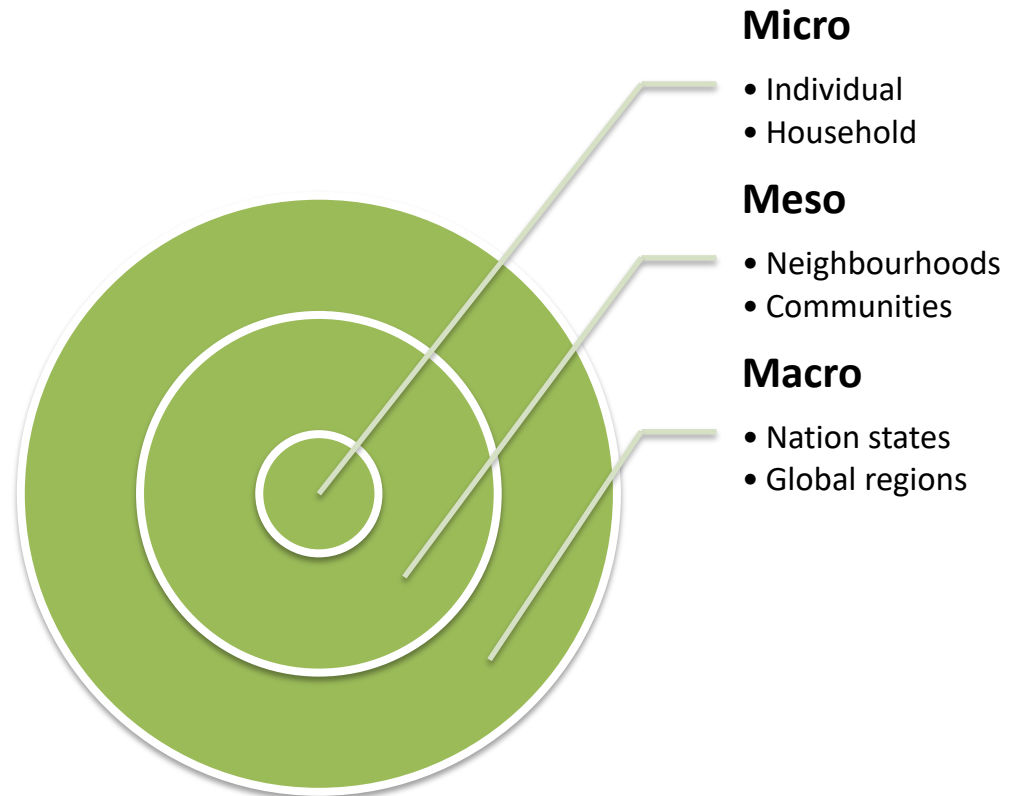

- Non-linearity; unplanned results
- Nascent and emerging areas of need
- Anticipatory policy making

Proactive and reactive functions

- Early-stage interventions
- Reactive measure

Dimension 5

Multi-layered & contextual

Dimension 5

Policy markers & Design Considerations

In-country coherence and coordination

- Horizontal coordination
- Policy coherence
- Vertical coordination
- Capacity and institutional fit at all levels

Regional and sub-regional coordination

- Soft laws mechanisms
- Non-standardized instruments

Dimension 6

Participation

Dimension 6

Policy markers & Design Considerations

Procedural improvements

- Participation as a normative goal
- Participation throughout the policy circles
- Guaranteed and institutionalized avenues

Transformative participation

- Susceptibility to marginalization in participatory processes
- Levelling the field
- Capacity to engage
