I. BACKGROUND
While the world may be increasingly interconnected, human rights violations, inequality and poverty still threaten peace and sustainability. Global Citizenship Education (GCED) is UNESCO’s response to these challenges. It works by empowering learners of all ages to understand that these are global, not local issues and to become active promoters of more peaceful, tolerant, inclusive, secure and sustainable societies.

GCED is a strategic area of UNESCO’s Education Sector programme and builds on the work of Peace and Human Rights Education. It aims to instil in learners the values, attitudes and behaviors that support responsible global citizenship: creativity, innovation, and commitment to peace, human rights and sustainable development. Under the GCED umbrella, UNESCO has several special themes: Preventing violent extremism through education, Education about the Holocaust and genocide, Languages in education and the promotion of the rule of law through global citizenship education.

Education for non-violence and peace includes training, skills and information directed towards cultivating a culture of peace based on human rights principles. This education not only provides knowledge about a culture of peace, but also imparts the skills and attitudes necessary to defuse and recognize potential conflicts, and those needed to actively promote and establish a culture of peace and non-violence.

The learning objectives of peace education may include an understanding of the manifestations of violence, the development of capacities to respond constructively to that violence and specific knowledge of alternatives to violence. Two fundamental concepts of peace education are respect and skills. Respect refers to the development of respect for self and for others; skills refer to specific communication, cooperation and behavioral skills used in conflict situations.

UNESCO Jakarta will conduct Sub-regional Study on Global Citizenship Education in Empowering Learners for Peaceful, Tolerant, Inclusive and Secure Societies to accelerate achieving SDG 4. This is a key activity in implementing the Education's priority area of Education for Sustainable Development and Global Citizenship Education anchored within the frameworks of UNESCO's Medium-Term Strategy and global development plans to achieve SDG 4 for Quality Education of 2030 Agenda.
