GLOBAL EDUCATION MONITORING REPORT

Migration, displacement and education:
BUILDING BRIDGES, NOT WALLS

Brussels, 4 December 2018
Global Education Meeting

Manos ANTONINIS
Director, Global Education Monitoring Report
The 2030 Agenda for Sustainable Development commits us to leave no one behind

Refugees and internally displaced persons and migrants are among those who are vulnerable [and] must be empowered

1 in 8 are internal migrants
1 in 30 are international migrants
1 in 80 are displaced

One of their vulnerabilities but also one of their strengths is education
Internal migration leads to:
CHILDREN LEFT BEHIND
- One in three in rural China

International migration leads to:
BRAIN DRAIN
- At least 1 in 5 skilled people emigrate from 27% of countries

Displacement leads to:
EMERGENCIES
- Half of refugees are under 18
MIGRATION and DISPLACEMENT...EDUCATION

Internal migration leads to:
EDUCATION OPPORTUNITIES
- Migrants from rural Indonesia had 3 more years of education

International migration leads to:
EDUCATION OPPORTUNITIES
- Children of Colombian migrants in USA had 2 years of education more than children of non-migrants

EXCHANGE AND MOBILITY
- In half of countries at least 6% of students emigrate

Displacement leads to:
REFUGE
- There were 12,700 attacks on schools in conflict-affected countries

GLOBAL EDUCATION MONITORING REPORT 2019
The more educated...

...are more likely to migrate

...are more likely to be open to immigrants and immigration

Compared with primary education graduates, tertiary education graduates are

2x as likely to migrate internally

5x as likely to migrate internationally
Inclusive education for migrant and displaced populations:
- addresses causes of tension
- helps realise their potential
- supports communities back home

Lowering the cost for migrants to send money home from 7% to 3% would provide US$1 billion for education.
Two new **global compacts** on migrants and refugees will be signed this year with education commitments.

How should countries achieve these commitments?
1 Protect their rights

- Don’t let ID documents or residence status block enrolment
- Make education and immigration laws consistent
- Do not let school leaders add extra barriers
- Put formal processes in place to respond to rights’ violations

In just 2 years since the New York Declaration...

...refugees have missed 1.5 billion days of school

“Jordan started allowing children to enter public schools without identification cards in 2016”
Refugees should:

- spend minimal time in schools not following national curricula

Immigrants should:

- not be segregated
- spend as little time as possible in preparatory classes
- not be separated into slower school tracks

“8 of the top 10 refugee hosting countries include them in national education systems including Chad, Ethiopia, Lebanon and Uganda”
Respond to their needs

- Provide language and other facilitating programmes
- Provide alternative, preparatory and accelerated education programmes
- Help overcome cost barriers
- Provide financial education programmes

"A cash transfer in Lebanon increased refugee school attendance by 20%"
Adapt curricula and re-think textbooks so that they:

- respect past history and current diversity
- recognize contributions of immigrants and refugees
- promote openness to multiple perspectives

“81% of those who took part in the Eurobarometer survey agreed that school materials should include information on ethnic diversity”
Prepare their teachers

Train teachers to:

- deal with diversity
- confront stereotypes and discrimination
- recognize stress and trauma and refer those in need

Relieve teachers from conditions of extreme hardship

73% of teachers had no training on how to provide psychosocial support

“In Iraq, the Education Cluster brought partners together to coordinate incentives for internally displaced teachers”
6 Harness their potential

- Reform institutions to accept qualifications earned all over the world
- Streamline and simplify systems for certifying skills

Among those with tertiary education in richer countries...

over \(\frac{1}{3}\) of immigrants but \(\frac{1}{4}\) of natives are overqualified for their jobs

“Germany offers opportunities to identify and evaluate undocumented occupational competences.”
Reform humanitarian/development aid

- Humanitarian and development actors must co-ordinate to provide predictable, multi-year funding
- Multisector humanitarian plans should include education

"Uganda brought together humanitarian and aid partners to prepare its education response plan."
