- implemented awareness-raising activities and programs

Considering cultural heritage as important factors for a sustainable social and economic development, the Ministry of Culture has intensified investments in infrastructure rehabilitation, preservation and promotion of cultural heritage. Improved infrastructure in museums, historic centres and archaeological sites are an ongoing process.

The Ministry of Culture new vision, approach and policy toward cultural heritage, is reflected also in the decision making process related to the fight against illicit trafficking in cultural property and return of cultural property. By Decision no. 312, dated 27.04.2016 the Council of Ministers approved the National Action Plan "For preventing and combating trafficking in movable cultural property", 2016-2018". (Official Gazzette of the Republic of Albania no. 75, 2005, 5 May).

The National Center of Cultural Property Inventory, a depending institution of the Ministry of Culture, is implementing the project "Establishing public information centers for the on-line registration of National Cultural Assets". It aims to identify, catalogue, storage and use it by all standards, giving importance to aspects such as the free access to the public and interested institutions for free use, serving also as a national strategy in the fight against illicit trafficking of cultural property.

VII. Granting of enhanced protection – Opinion Survey

Pursuant to Chapter 3 of the 1999 Second Protocol, enhanced protection is granted by the Committee for the Protection of Cultural Property in the Event of Armed Conflict if three conditions are cumulatively met:

- The cultural property is of the greatest importance for humanity;
- The cultural property is protected by adequate domestic legal and administrative measures recognizing its exceptional cultural and historic value and ensuring the highest level of protection; and,
- The cultural property is not used for military purposes or to shield military sites, and the Party which has control over it has made a declaration that it will not be used for such purposes.

As these conditions are set out within the framework of an international treaty, their full understanding cannot be separated from state practice, which is of fundamental importance with regard to the International Law of treaties. As such, this national report is an opportunity for the national authorities of the Parties to express their views on the conditions under which enhanced protection is granted.
