On May 16, 2018 a Press Freedom Conference was held in Sofia – organized by the Union of Publishers in Bulgaria in association with EMMA/ENPA, European Federation of Journalists, in partnership with Reporters Without Borders, ECPMF, Union of Bulgarian Journalists, Association of European Journalists - Sofia. The conference “Media freedom and pluralism: How to reboot an essential EU pillar" focused on media policy in the EU, issues related to press freedom in individual EU countries and more generally on sustainability of the independent press. Representatives from the publishing sector, EU stakeholders and decision-makers gathered in Sofia during the Bulgarian Presidency of the Council of the EU to discuss press freedom in a call to prioritize media freedom and plurality in the EU in the forthcoming years. The Conference adopted Sofia Declaration for the Media Freedom in Europe.

Section 3: Steps the Member State has taken to consider the specific risks faced by women journalists in the exercise of their work
Bulgaria considers as a high priority the topic of the safety of journalists and specifically female journalists, and in this context supports further deliberations within the OSCE on how to address more effectively these challenges. As an EU Member State, we uphold the highest standards in this field.

State officials may declare the position of the Republic of Bulgaria regarding instances of threats and violence against journalists and other media actors, during their participation in the work of international human rights organs and organisations. The instances of serious violence against journalists are rare.

Additionally, the Republic of Bulgaria regularly sends information, reactions and statements to the instances of threats or violence against journalists, reported via the Council of Europe Platform to promote the protection of journalism and safety of journalists.

In recent years, we have a fruitful dialogue with the OSCE Representative on the freedom of media and benefit from his expertise in promoting the need for stronger protection and safety of journalists. Even if such cases are seldom in Bulgaria, the competent authorities react swiftly in each case of a violent crime. Bulgarian authorities will continue to approach with due seriousness any case of violation against journalists.

Bulgaria shares the objectives of the UN Plan of Action on the Safety of Journalists and fully supports the leading role of UNESCO in strengthening its implementation.
