Hydro-Climate Services for All

SIDE EVENT AT COP22

Wednesday, 9 November 2016, 18:30 – 20:00
Mediterranean Room (300)

The side event aims to bridge the gaps between the producers and users of hydro-climate services, between water and climate communities, and between science and policy-makers and negotiators. It will demonstrate how water is a connector; central for implementing the Paris Agreement, climate finance, Intended Nationally Determined Contributions and more.

Topics of Discussion

- Characteristics of hydro-climate services
- Examples from different regions, sectors, levels of governance
- Political process and finance to ensure funding

Keynote Speaker

Mr. Andres Tarand, former Prime Minister of Estonia
