

Mobile Learning Week 2019

4-8 March 2019

Paris, France

Workshop - SKILLOGS

| | |
|---|--|
| Title of the workshop: | Artificial Intelligence and Language Learning: A Live Experience |
| Date: | 5 March 2019 / 11:45 – 13:15 |
| Name of the presenters/facilitators: | Raphaël Moraglia – Hamza Didaraly – Alicia Belliard – Prasanth Pushparasah |
| Time allotted: | 1 hour 30 minutes |
| Subtheme: 1. Ensuring inclusive and equitable use of AI in education or 2. Leveraging AI to enhance education and learning or 3. Promoting skills development for jobs and life in the AI era or 4. Safeguarding transparent and auditable use of education data | Leveraging AI to enhance education and learning |
| About workshop: | Skillogs, French EdTech developing the ACARYA intelligent e-learning platform, offers an interactive conference: the public will see the GARGANTUA Artificial Intelligence algorithm grow in real time, thanks to its interaction on a French course. The experiment provides a didactic understanding of the impact of user paths, data collection and analysis, decision-making, prediction and recommendation processes that will make up tomorrow's education. |
| Objectives of the workshop: | Make AI impact understandable to all |
