“Broadening the Application of the Sustainability Science” Approach”

- Second Symposium -

Salvatore ARICÒ, UNESCO, Kuala Lumpur, 19 December 2016

Goal

A set of policy relevant (not policy prescriptive) normative guidelines on the application of the sustainability science approach

Objectives and desired outcomes

- A description and working definition(s) of the approach
- Principles
- Operational guidelines
 - For research
 - For research funding
 - For education
- The contribution of science to the realization of the 2030 Agenda

Project Steering Committee

- Maik Adomssent, Leuphana University of Lüneburg
- Eduardo Brondizio, Indiana University and Future Earth
- Mathieu Denis, International Social Science Council (ISSC)
- Kazuki Fukuda, Japan/MEXT
- Heide Hackmann, International Council for Science (ICSU)
- Joanne Kauffmann, Integrated Research System for Sustainability Science, University of Tokyo
- Luiz Oosterbeek, International Council of Philosophy and Human Sciences (CIPSH)
- Lutz Möller, German National Commission of UNESCO
- Jan Monteverde Haakonsen, Research Council of Norway
- Mohamed Saber, National Research Centre (NRC), representative of the Government of Egypt
- Kazuhiko Takeuchi, United Nations University (UNU) and University of Tokyo
- ADG/SC and ADG/SHS (or their representatives)

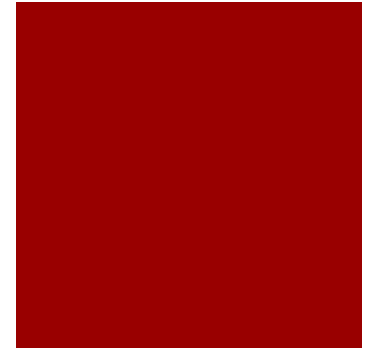

Key Steps

- **State-of-the-art (Paris, April 2016)**
- **Regional experiences and perspectives (Kuala Lumpur, December 2016)**
- **Drawing the lines on a set of draft normative guidelines (Paris, April/May 2017)**
- **Peer-review and consultation**
- **Consideration by UNESCO Member States**
- **Dissemination, application and mainstreaming**

Organization of work

- Panel 1: Framing the discourse
- Panels 2 to 6: Regions and Major Groups
- Breakout Groups:
 - Description/Definition(s) and Principles
 - Guidance for research and research funding
 - Guidance for education
- Concluding panel

Thanks !
