Organisation Nile Institute of Information and Communication Technology Ltd

Email address kacire203@gmail.com

Country/region Uganda

Gender Male

How would you define the stakeholder community or communities to which you belong? Private sector

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	Internet should be a human rights based for all
--------	---

Openness	Freedom of internet access and use to all
----------	---

Accessibility	Affordable and accessible internet for all
---------------	--

Multistakeholder participation	Active participation for everyone
--------------------------------	-----------------------------------

Cross-cutting indicators	Affordable, accessible and usability for everyone
--------------------------	---

2. Are there are any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights	Include persons with disability
--------	---------------------------------

Openness	Freedom of information to all
----------	-------------------------------

Accessibility

Universal design and access of internet tools

Multistakeholder participation

participation of all

Cross-cutting indicators

Universal design

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights

Capital

Openness

Funding gap

Accessibility

Funding gap

Multistakeholder participation

workshops and conferences

Cross-cutting indicators

Using local community operators would help address the gaps

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

Digital divide, skills gaps

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

Advance the UNESCO principle of Universality

6. How do you think that other stakeholders might use the framework? For advocacy purpose on internet universality

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

Profit and non-profit community operators should be taken into account while developing this project of Universality to enable the impact reach rural and remote areas around the World

8. Please upload any documents that you think will be helpful here.
