2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?
3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

I have not experience............

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

I don’t think about that and have not my opinion.

6. How do you think that other stakeholders might use the framework? Just as a "listener" only.

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

8. Please upload any documents that you think will be helpful here.
