

## Submission # 6

**Name:**Stephen Stillwell

**Country/Region:**USA

**How would you define the stakeholder community or communities to which you belong?**

Individual capacity

**Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?**

I suggest, in pursuit of these goals, the seemingly unrelated inequity of money creation shall be addressed with a simple rule of inclusion.

Including each equally, structurally, in the foundation of our Shared global economic system, provides a foundation for extending equity throughout society

<https://medium.com/@stephenstillwell/why-should-we-not-include-each-in-money-creation-b581c7dedeef?source=linkShare-46143b2857b6-1518052878>

Thanks for your kind indulgence
