

## Submission # 54

**Name:**Mohamed Timoulali

**Organization:**GTOPIC

**Country/Region:**Morocco

**How would you define the stakeholder community or communities to which you belong?**

Private sector

**Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?**

No

**Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?**

Defining a set of indicators is a first step of the Process.  
Validation has to be made by piloting projects in selected countries on geographic, stage of development and linguistic criterias.

**What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?**

In the absence of administrative data, refer to a specialized panel with a balanced multistakholder composition
