

Submission # 65

Name:Shelley-Ann Clarke-Hinds

Organization:Ministry of Public Administration and Communications

Country/Region:Trinidad and Tobago

How would you define the stakeholder community or communities to which you belong?

Government

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

Role of private investment and research and development (R&D;) spending

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

No.

What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?

The data for the Contextual Indicators which are to be sourced primarily from international organisations should be supported by secondary sources at the regional and national level e.g. Central Banks, Regional and National Research Institutes, etc.
