

Submission # 82

Name:judith komba

Organization:Ministry of Education, Science and Technology

Country/Region:Tanzania

How would you define the stakeholder community or communities to which you belong?

Government

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

The frame is exhaustive enough, so I don't see any additional themes or indicators related to internet universality study.

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

No additional suggestions as it stands.

What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?

The proposed sources and means of verification should be the ones that Government have published.
