Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

Me parece que debería explicitarse el tema de derechos digitales y educación digital.

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

Más que indicadores de múltiples partes interesadas, ubicaría algo de inclusión digital en función de reconocer las diferentes identidades digitales para una aldea planetaria digital.

What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?
