

## Submission # 3

**Name:**Junior Michel

**Organization:**Conseil National des Télécommunications

**Country/Region:**Haiti

**How would you define the stakeholder community or communities to which you belong?**

Government

**Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?**

Le cadre est complet mais certaines questions devraient etre posées.

**Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?**

L'analphabétisme (question 53) est touché mais l'illettrisme devrait etre abordé . Parce que l'illettrisme est un veritable frein à un usage productif des TICs.

**What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?**

Le plus important serait de systematiquement (dans la mesure du possible) de croiser les sources.
