UNESCO
A WORD FROM THE DIRECTOR OF THE BUREAU OF HUMAN RESOURCES MANAGEMENT (HRM)

UNESCO works with a wide range of partners in all of its fields of competence. Partnerships are rooted in UNESCO’s way of working at global, regional and national levels.

UNESCO has a long-standing tradition of collaborating with institutions and entities of many kinds such as Governments, Intergovernmental Organizations, UN agencies, Non-Governmental Organizations, Universities, Private Sector companies, etc.

We see partnerships as being win-win operations, strengthening capacity both ways between UNESCO and our Partner Organizations.

By joining forces with our partners, UNESCO can leverage resources, expertise and competencies to promote its ideals and values, to achieve the 2030 Agenda for Sustainable Development, and to strengthen the visibility and impact of its activities.

Partnerships are vital in the support of UNESCO’s Programme, and we thank all current and future partners for their invaluable contributions and look forward to our continued collaboration.

“This programme provides a great opportunity for young people especially graduates without any working experience to participate in the actual work of UNESCO both at Headquarters and in the Field Office. The best learning is doing. This 6 months/1 year experience is an extraordinary chance to equip yourself with an international vision as well as practical skills, which will also be an asset if you plan to start your career as an International Civil Servant.”
